Art Unit: 3682

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Olson.

Claims 2, 9, 11-15, 20, and 21 are allowed.

Claims 5, 6, 8, 10, and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's arguments filed May 13, 2005 have been fully considered but they are not persuasive. With respect to Olson, Applicant states "collar (16) relies on set screw (17) to nonrotatably fix collar (16) to shaft (13). Thus, collar (16) does not include a spindle mating portion shaped to nonrotatably fix collar (16) relative to spindle (13). However it is this set screw that corresponds directly to the claim language of the spindle mating portion. The set screw does mate with the spindle to nonrotatably fix the first lock member relative to the hub spindle, and is axially spaced from the mating portion engaging the bearing member.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3682

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
